

SILVEREAGLE®

Product range Lubricants

2023

The brand SilverEagle®

Many decades of practical experience in the automotive and industrial lubricants business have been the foundation of Leprinxol GmbH since 1868.

SilverEagle® is a brand made in Germany, with high quality engine oils and other lubricants at the automotive and industrial sector.

We supply our lubricants after thorough consultation, if necessary also on site. This service, supported by extensive equipment technology, is achieved with our own sales department and our dealers.

Today, **SilverEagle®** products are on the market with around 600 different lubricants, that meet all the important requirements of industry and sold all over the world.

Quality

- Consistently high product quality
- Ensuring process reliability
- Supervising our product properties
- Additional testing by renowned testing institutes.
- Blending plants are certified according to Quality Management System.

ADDITIVES ANTIFREEZE

Our high quality lubricants are recommended for:

SilverEagle® Engine Care & Protect

Engine Care & Protect contains a highly effective additive package for increased wear protection properties of all types of engine oils.

SilverEagle® Engine Flush

Engine Flush is suitable for all diesel and petrol engines with or without turbochargers. The product contains highly effective anti-friction lubricants that reliably protect the engine during the cleaning process.

SilverEagle® Fuel System Clean & Protect

Fuel System Clean & Protect provides effective cleaning of the entire fuel system from the tank to the combustion chamber. Displaces moisture, removes operational contamination and prevents the formation of new deposits.

SilverEagle® Octane Booster

For increasing the octane rating of low octane fuels or for use in engines with higher octane requirements.

SilverEagle® Diesel System Clean & Protect

Diesel System Clean & Protect contains a selected combination of active ingredients to improve engine performance and increase operational safety. For use in all diesel engines. Also suitable for high-pressure direct-injection diesel engines with common rail technology or pump-injector injection.

SilverEagle® Automatic Transmission Care & Protect

Maintains the performance of the automatic transmission. Ensures smoother gear changes, prevents jerking and delays in acceleration. Supports the cleaning effect of the automatic transmission fluid. With corrosion protection that prevents rusting of internal parts and premature wear.

HIGH QUALITY PRODUCTS "MADE IN GERMANY"

We produce our products (blending/filling) at four different locations in Germany. Our quality standard is the permanent fulfilment of customer specifications. The requirements for our products depend on many factors. The different and sometimes extreme stresses to which lubricants are exposed place high demands on quality, which are documented by manufacturer approvals.

Thus, our products meet the required qualities of the OEM manufacturers. For reasons of quality assurance, we have the product properties monitored by renowned testing institutes. Our production facilities are certified according to DIN / ISO 9001, DIN / ISO 16949 and ISO 14001.
